## **WEEK-END DULL** ON STOCK MARKE

Insignificant Changes Only Result of Day's Small Business.

#### UNION PACIFIC VERY STRONG

Great Growth in Railway Earnings for First Half of the Year Attracts Attention.

(By Associated Press.)

NEW YORK, July 15.—The stock market fell into legarity to-day, and only insignificant changes resulted from the

insignificant changes resulted from the day's small business.

The heavy accumulation of cash revealed by the bank statement was much larger than indicated by the preliminary estimates, but this was supposed to be due to the rectification of last week's unex-pectedly large decrease by the working out of the computation by daily averages.
As this building up of the reserves is for
the purpose of providing for the repay-

As this building up of the reserves is for the purpose of providing for the repayment of the \$11,000,000 of government deposits called for to-day, the money market is not expected to benefit from it. The case of call money during the past week ind evidently been due to the temporary employment of these funds. The contraction in losus releved any apprehensions that the subscriptions for the Japanese losus had made any undue inroads upon available credits.

The absorption of Union Pacific set affoat renewed conjectures as to the coming dividend, action upon which has been expected from day to day during the week. The Financial Chronicle's estimate of the expansion in railroad gross earnings attracted attention, return from 125 railroads, partly estimated, indicating an increase for the first half of the year over the rather unfavorable showing of the first half of last year of approximately \$55,000,000, while the comparisons with the first six months of 1897, eight years ago, shows expansion of some \$470,000,000. The buying of Union Pacific held the market firm to the close.

Total sales of bonds, par value, amounted to \$1,028,000.

The total sales of stocks amounted to 164,600 shares.

#### Pigmy Marriages.

Pigrny Marriages.

Some hitherto unpublished facts about the habits of the African pygmies are contained in a pamphiet just published by Colonel Harrison, who brought from Central Africa the party of little people now in London. The nygmies generally marry at the age of 8 or 2, and the men buy their wives with three or four spears and ten or fifteen arrows, according to the market value of the lady. They pay by installments, and not until the last arrow is handed over is the lover allowed to take his bride. A man may have as many wives as he can afford to buy. The birth of a hoy is welcomed, but when a girl baby arrives the unfortunate creature is soundly lashed by the father with a bunch of plantian leaves.
